REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art references fail to disclose applicant's wireless communication device having 1st and 2nd transceivers that will allow a conference call to one called party in the Low Power Radio Frequency (LPRF) network, and to another party in another wireless communication network that is different than the LPRF. The closest piece of prior art found, Ziliacus et al '347, fails to disclose a wireless device that performs a conferencing call, but whose wireless devices do have 1st and 2nd transceivers for the transmission of data signals between different wireless networks. See col. 3, lines 34-37. No obvious combination of references found would have taught one of ordinary skill in the art to make and use applicant's apparatus as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Creighton H. Smith whose telephone number is 571/272-7546. The examiner can normally be reached on M-F, alternate Fridays off.
